Patient Engagement Resources for Early-Phase Clinical Trials

To help investigators in building patient engagement strategies for early-phase clinical trials, the [Blueprint Translational Research Group](#) at the Ottawa Hospital Research Institute has developed the following list of useful resources that researchers can consult during the planning of their study. Please visit the Blueprint Translational Research Group's [website](#) for additional information. The resources provided below may only be available in the language in which they were originally published.

1. **The Blueprint Translational Research Group's Educational Videos on Patient Engagement.** For more detailed information, you can access the full content [here](#).
2. **Practical Guidance for Involving Stakeholders in Health Research.** For more detailed information, you can access the full article [here](#).
3. **Factors to Consider during Identification and Invitation of Individuals in a Multi-stakeholder Research Partnership.** For more detailed information, you can access the full article [here](#).
4. **Patient Engagement and Canada's SPOR Initiative: A Resource Guide for Research Teams and Networks.** For more detailed information, you can access the full guide [here](#).
5. **Patient Engagement in Health Research: A How-to Guide for Researchers.** For more detailed information, you can access the full guide [here](#).
6. **Patient Engagement Quality Guidance.** For more detailed information, you can access the full guide [here](#).
7. **Patient Engagement Quality Guidance - Hotì ts'eeda SUPPORT Unit.** For more detailed information, you can access the webpage [here](#).
8. **SPOR: Evidence Alliance Patient Partner Appreciation Policy and Protocol.** For more detailed information, you can access the full policy and protocol [here](#).
9. **Identifying helpful groups to consult for diverse, equitable and inclusive patient engagement: Equity-Mobilizing Partnerships in Community (EMPaCT).** For more detailed information, you can access the full article [here](#).
